

Shopping:

1. How often do you use plastic bags when you go shopping?
2. What alternative methods can you think of to avoid using plastic bags?
3. Why is it important to buy locally produced food?
4. What would a **waste-free** store look like that tries to sell food without packaging or plastic bags?

(consider the form of buying: - pastry / bread

- egg
- fruit and vegetables
- sweets
- milk, and dairy products
- drinks

5. Do you know of any stores like this in your area?

If yes, do you go there, or why haven't you started going there?

6. Who should make the first step towards a more environmentally way of shopping: the governments or the individuals?
7. Write down your tips for any environmentally way of shopping on a poster!
